Subject: Testimonial

Dear Arushi ji,

GEMA consistently advocates for the interests of grain ethanol industry. The association is effectively bridging a gap between the government bodies and manufacturers pan-India. GEMA has shaped grain ethanol as a recognisable base of industrial segment of the country.

It further plays a crucial role in advancing knowledge through its industry-focused seminars. Their work not only raises awareness but also provides tangible benefits to members, supporting growth and innovation in the sector.

Warm regards,

  
Uppal Shah  
Managing Director
