MESSAGE

I am delighted to learn that the Grain Ethanol Manufacturers Association (GEMA), is launching its new Website. GEMA is an Association of Grain Ethanol Manufacturers in India which is coming out with business solutions for grain ethanol manufacturers pan India.

GEMA is actively involved in collection of data of Grain Ethanol Manufacturers and record keeping. By having professional website, GEMA can enhance their online presence, improve communication with members and increase operational efficiency.

I would like to take this opportunity to congratulate GEMA on the successful launch of its website. I am confident that this platform will provide immense value to its member units and further strengthen the grain ethanol industry in India.

Aswani Srivastava
Joint Secretary
Department of Food & Public Distribution
