- iii) Shri K. K. Kishore, Chief General Manager-HPCL, Mumbai

Subject: EOI for Feedstock Conversion to FCI rice for allocations for Q2, Q3 and Q4 of ESY 2024-25 published on 06.02.2025 closed on 11.02.2025.

Respected Sir,

This is with reference to the EOI published on 06.02.2025 regarding feedstock conversion to FCI rice for Q2, Q3, and Q4 of ESY 2024–25, which closed on 11.02.2025. The said EOI was intended solely to collate data on potential conversion of existing allocations to FCI rice.

However, as Q2 is nearing completion and allocations for Q3 are still awaited; units have to make feedstock arrangements as per their existing allocations without factoring in the availability of FCI rice for conversion.

In this context, we wish to reiterate the importance of reconfirming the conversion request with the concerned supplier **before** proceeding with any conversion to FCI rice.

We request your kind attention to this matter to ensure smooth coordination and planning at the unit level.

with regards

Dr. C. K. Jain, President
