

Ref: GEMA/DFPD/2024-25/381

Date: 02nd April 2025

To,

Shri Pralhad Joshi Ji

Hon'ble Minister Govt. of India,
Department of Food and Public Distribution
Krishi Bhawan, New Delhi.

Subject: Request for Feedstock Conversion from SFG to Other Feedstocks (Maize & DFG) on a Case-to-Case Basis.

Respected Sirs,

We, on behalf of the Grain Ethanol Manufacturers Association (GEMA), would like to bring to your kind attention a critical issue affecting multiple ethanol plants due to the delay in the issuance of indents for Quarter 2 under Tender Cycle 3, which exclusively mandated Surplus FCI Rice (SFG) as the feedstock. Earlier all tenders were issued with Maize & DFG as feedstock & it is the first time that a tender exclusively for surplus FCI rice (SFG) has been published.

Due to this delay, some ethanol manufacturers, in order to maintain operational continuity and meet their financial obligations, had to produce ethanol using alternative feedstocks such as Maize and Damaged Food Grains (DFG). Consequently, several member plants now have significant opening stock of ethanol produced from Maize/DFG, as well as an inventory of these grains.

With the issuance of Tender Cycle 3 for Q2 exclusively for SFG-based ethanol, these plants are now facing operational and financial distress, as their working capital cycles are adversely impacted due to the unsold ethanol stock from Maize/DFG and the raw material inventory.

In the recent virtual with the three OMCs, it was discussed and assured that OMCs may consider allowing feedstock conversion on a case-to-case basis, provided the affected plants submit a Chartered Accountant (CA) certificate verifying that the stocks were available before the issuance of the tender.

Additionally, as per the requirement for new DEPs, certain members had undertaken ethanol production to comply with the Third-Party Inspection Agency (TPIA) certification, ensuring continuous production up to the LTOA quantity. This has further contributed to the accumulation of ethanol stock from Maize/DFG.

Request for Consideration:

In light of the above, we earnestly request OMCs to analyze and approve feedstock conversion from SFG-based ethanol to ethanol produced from Maize/DFG on a case-to-case basis for affected plants. We are prepared to provide necessary supporting documentation, including CA certification, to substantiate the claim.

Your kind consideration and approval of this request will significantly help ethanol manufacturers sustain their operations and ensure uninterrupted ethanol supply under the ongoing procurement cycle.

Cc: kkishore@hpcl.in

Dear Sir,

We refer to the tender for C-3 (Tender ID 18791 and TENDER REFERENCE NO. – 1000423858 (C-3)), which was floated on 29-01-2025 for the supply of 124 crore litres of denatured anhydrous ethanol during Q2 & Q3 of ESY 2024-25, to be produced from C-Heavy molasses and surplus rice sourced from FCI.

We had successfully participated in the tender and were allotted quantities of ethanol to be supplied from surplus rice sourced from FCI. However, since we were not allocated the required FCI rice, we were unable to commence supply, and a substantial period of Q2 (Feb, March, and April 2025) has already passed.

Before the tender was issued, we already had stock of 5803.699 KL of ethanol produced from maize (as of 28-01-2025), along with a stock of maize amounting to 17071.14 MTs, as verified by the Chartered Accountant certificate enclosed herewith for your reference. As we continue to hold a substantial stock of ethanol from maize feedstock as well as raw maize, this has severely impacted our working capital and overall financial liquidity.

In light of the above, we humbly request your approval to convert at least 5803.699 KL of ethanol produced from maize against the allotted quantity of ethanol from surplus rice, ensuring timely fulfillment of our supply obligations. Given the current situation, we believe that allowing this conversion would not only help ease our financial strain but also support the overall health of this DEP .

We appreciate your time and consideration and look forward to your positive response.

Yours sincerely,

--

Regards,

Mahendra Sharma

Request for conversion of feedstock from FCI rice to DFG for C-3Q2

2 messages

Lokesh Singhal <lokesh@assagogroup.com> Sat, Mar 8, 2025 at 6:11 PM
To: "saraogi anurag (सरावगी अनुराग)" <saraogia@bharatpetroleum.in>, "Siddhartha Mitra (सिद्धार्थ मित्रा)" <siddhartam@indianoil.in>, "Kishore Kanyalur Krishna (किशोर कन्यालूर कृष्णा)" <kkishore@hpcl.in>
Cc: "contactinfo.gema@gmail.com" <contactinfo.gema@gmail.com>, Ashish Gurnani <ashish@assagogroup.com>

Dear Sir,

I am writing to inform you that we have been allocated FCI rice through our participation in the C-3 tender. As a distillery in continuous operation since the start of Q1 ESY 24-25, we have been utilizing DFG as our feedstock.

As of January 28, 2025, prior to the opening of the C-3 tender (TENDER ID – 18791) on January 29, 2025, we had produced 2,947 KL of ethanol from DFG. As of today, March 8, 2025, our stock of DFG-produced ethanol stands at 4,454 KL.

We kindly request that you allow us to convert our feedstock from FCI rice to DFG. This would enable us to begin immediate dispatches to the allocated terminals.

Thank you for your consideration.

Sincerely,
Lokesh Singhal

Dear Sir,

I am following up on our request to convert our feedstock from FCI rice to DFG.

We currently have a significant amount of stock and working capital tied up. Your approval would greatly help us in releasing this blocked capital.

We appreciate your time and look forward to your positive response.

Sincerely,
Lokesh Singhal

Cc: contactinfo.gema@gmail.com

Dear Sir,

This is to bring to your kind attention that our unit is newly setup and was unable to participate in C-1 tender. We are LTOA holder and has already submitted commissioning certificate issued by TPIA and has produced 4627 KL ethanol from Maize before participation in C3 Tender , but now we have an allocation to supply ethanol under Tender C-3 to be produced from surplus FCI Rice only.

During the virtual meeting held on 07th March with OMCs, it was conveyed that individual units with such stock, produced prior to the opening date of the aforementioned tender, may directly approach the OMCs for consideration. In line with this direction, we are hereby submitting the necessary details of our produced stock along with a Chartered Accountant's certificate verifying that the stock was produced before the tender opening date.

We humbly request you to kindly consider our request and allow us to supply this ethanol under the Ethanol Blending Programme (EBP) to avoid our significant financial losses . This will also help us to continue the supply as per our contractual obligations as the supply of FCI Rice not started and to contribute towards the national ethanol blending targets without any disruption.

Please find attached:

1. CA Certificate confirming the production date of stock

We look forward to your kind support and an early favorable response.

Thanking you,
Yours sincerely,

Rajendra Kumar Jain

Urgent - FCI Rice Conversion Request

1 message

KG Spirits <kgspiritsllp@gmail.com>

Cc: Grain Ethanol Manufacturer's Association <contactinfo.gema@gmail.com>, shivaprasadg@bharatpetroleum.in, ANURAG SARAOGI <saraogia@bharatpetroleum.in>, "Maheshwari, Rohit (रोहित माहेश्वरी)" <rmaheshwari@indianoil.in>

Dear Sir,

This is a humble request to look into the below matter on an urgent basis for sustainability of the grain based ethanol distilleries.

Our company K G Spirits LLP along with other plants had participated in the C1 and C2 tender for allotment of supply of ethanol for all the four quarters of the Ethanol year. We had successfully allotted the supplies with the feedstock as DFG and Maize. Both these tenders did not include FCI rice as feedstock.

In the month of Feb 2025, C3 tender came out especially for FCI rice feedstock to be participated by plants. Only plants which had not participated in C1 and C2 or plants which had additional production could participate in the C3 tender. OMC for other plants like us were offered to convert the feedstock to FCI rice for Q3 and Q4.

Now we are standing after a month and C3 allotment has been granted. The plants including us which had given requests for feed conversion haven't got any reply yet. Q3 is going to start in 45 days and we are desperately waiting for the conversation to get executed by the OMC's.

Sir, even with earlier prices of DFG on the market the plants were unviable and losing capital and now the government has allowed export of DFG in March 2025 and this has brutally resulted in increase the prices in the market. The plants will not be able to survive with market DFG as feedstock and we urgently need your support for procurement of FCI rice to overcome this situation.

Sir we hope OMC will take up this matter urgently and provide relief to us.

Thank you,
Rakesh Kumar
Partner, K G Spirits LLP

Dear sir

Greetings !!!!!

As discussed in the meeting, we would like to share that we have a stocks of Maize 31,639 MT which is equivalent of 12,000 KL of Ethnaol. And we have already produce 3000 KL. (CA certificate attached)

We humbly request you kindly convert the 12,000 KL feedstock from SFG (FCI rice) to the maize to avoid the heavy losses.

Thanks and regards

Respected Sir

We wish to share with you that in Rana Sugars Ltd (Distillery Division) – Tarn Taran, Punjab Plant we were having the following Ethanol Stocks as on Dated 28th January, 2025:-

- a) Damaged Food Grains Ethanol = 199.113 KL
- b) Maize Ethanol = 1519.977 KL
- c) C-Heavy Molasses Ethanol = 19.164 KL

We are attaching the certification copy of C.A. certifying the stocks position. As till date the Maize stocks is piled up in our Tanker which we need get vacated very urgently for utilizing in FCI Rice Ethanol Production. You are requested to please allow us change of feed stock from FCI Surplus Rice to Maize for 1519.977 KL so that we can vacate our tankers immediately.

Best wishes,

Yogesh Bhanot
